FOR EXCHANGES AND LIQUIDITY PARTNERS

The Tanzanian shilling, on-chain.

nTZS is an ERC-20 token on Base, issued 1:1 against Tanzanian shillings by NEDA Labs Limited and redeemable for shillings via mobile money. This sheet has what you need to list it: the contract, its controls, how it is priced, and where the live files are.

TOKEN **nTZS (nTZS)**	PEG **1 nTZS = 1 TZS**	STANDARD · DECIMALS **ERC-20 · 18**
CHAIN **Base mainnet (chain id 8453)**	CONTRACT (PROXY) **0xF476BA983DE2F1AD532380630e2CF1D1b8b10688**	
ISSUER **NEDA Labs Limited, Tanzania**	EXPLORER basescan.org/token/0xF476...0688	

Contract and controls

Upgradeability	UUPS proxy (EIP-1822). Upgrades only by the admin role.
Admin	Gnosis Safe multisig, `0xB2b8...C503`. Grants and revokes every role.
Mint · burn	Minting infrastructure, against verified TZS deposits and on redemption.
Pause	Emergency halt of all transfers.
Freeze · blacklist	Per address, for suspected fraud or a regulatory requirement. A blacklisted balance can be wiped.

Supply and reserves

- Minted only against verified TZS deposits; burned on redemption.
- No pre-mint, team allocation or reserve pool.
- Supply in circulation is at most the TZS reserve assets held.
- Reserves are held in segregated accounts, outside NEDA Labs' general assets.
- Redemption to TZS via mobile money; minimum 5,000 TZS.

Supply, for listing sites: `/api/coingecko/supply/circulating` and `/total`.

Pricing

Reference rates follow the **Bank of Tanzania's official mean exchange rate**, synced four times a day; BoT publishes on business days. Each rate carries BoT's own figure and date, and a `status`: swaps against a `stale` pair are refused until it is refreshed.

Reference rates	`GET https://www.ntzs.co.tz/api/v1/rates` · public, no key, cached about a minute
Executable quote	`GET https://www.ntzs.co.tz/api/v1/swap/rate?from=USDC&to=NTZS&amount=100` · valid about 30 s
Liquidity	SimpleFX: market makers quote nTZS against USDC, USDT, tGBP, ZARP and cNGN. Partners can source liquidity there or quote as a maker.

Files and links

Listing guide	ntzs.co.tz/developers/docs/listing
Token list	ntzs.co.tz/tokenlist.json (tokenlists.org)
Logos	SVG and PNG (64 to 1024 px) in the kit and at `/listing/ntzs/`
API reference	ntzs.co.tz/developers
Whitepaper	ntzs.co.tz/whitepaper

Using the logo

- Use the round coin as the token icon; it reads on light and dark.
- Do not recolour, stretch, crop or add effects. Keep clear space of a quarter of its width; 16 px at the smallest.
- Write it "nTZS": lower-case n, upper-case TZS.

Contact

Integrations and listing: **devops@ntzs.co.tz**. Ask to be told before any change to the contract address, its controls or these endpoints. The live versions of everything here are at the listing guide; this sheet is a snapshot from 28 October 2026.
